

## Technical Manager

### Details -

- The position is Full-Time 40-hour week 8:30am to 17:30pm (\*required flexibility to work evenings/weekends)
- Salary - Negotiable dependent on experience.
- Location - South Kirkby, Wakefield

Full 3Sixty create full 360 projection mapped spaces, utilising all four walls, to fully immerse users in any environment. Our environments are installed and used in schools and training applications, across the UK.

We currently have a vacancy on our expanding team for an individual looking for a technically challenging, varied position working with the latest 360°/XR/AR/VR technology.

The Technical Manager is responsible for planning and leading the delivery of our installation projects. This key role also involves providing input into the development of the company's products and matching emerging technology to new applications

The role also involves leading technicians and contractors in the on-site installation and commissioning of our products.

This is a customer-facing role, which involves dealing with key clients and will require strong communication skills.

You will have experience in networking, audio visual and IT systems and strong knowledge in Systems Integration. You will be experienced in server rack fit-out/deployment/detailed knowledge of connectivity between multiple components. Additionally you will have Projector knowledge, set-up, hanging, alignment, mapping.

You will have a good range of software skills and experience including many of the following: Windows, media servers, Restart and crash, Pulseway, Black magic, Entech, Nvidia, Synology, Sync client, Office 365, Apple, OVH, C-panel, Solus VM, Synology DSM, Adobe creative cloud. You will have Nvidia graphics card knowledge, FX4 (datapath) calibration of FX4 to video output, Ubiquity networking knowledge, to include protocols, sub domains, VLAN, DNS, Ubiquity switches, cameras, access points, routers, software, Knowledge of OSC protocols

A driving licence is required.

Applications to include a letter of application and a CV, to David Poynton:
